

FOR IMMEDIATE RELEASE

Launching of new CHIC videos

The CHIC project will launch next June 10th a set of four new videos:

- 1) Can you imagine future society with science and technology but without culture and art? Art and science engage YOU in chicory research.
- 2) Do you know what is CHIC project?
- 3) Chicory research – for healthy diets and human health
- 4) When Gene Editing Is Cool: Get The Best Out of Chicory Plants

It has been carried out during the month of April 2020 when the pandemic situation by COVID-19 was critical in Europe and most of the population was confined to their homes. However, it has been possible thanks to the enthusiasm of all CHIC partners to bring the project and its benefits to society and to the excellent work of guidance, compilation and editing of EPSO.

Here's a preview of the video:
